WEST TOWN

VIRTUAL WEST FEST CHICAGO
2020 RECAP

Presented by Zapwater Communications
With the nationwide lockdowns and strict safety measures put in place to stop the spread of COVID-19, it quickly became clear that the summer festivals West Town Chicago is known for would need to look different this year. Ahead of the official mandate banning large gatherings in Chicago, Zapwater and the West Town Chicago teams made the decision to transition West Fest Chicago to a virtual format allowing fest-goers to enjoy and experience #WestFestChicagoAtHome.
With this alternative approach, Zapwater was responsible for the following:

• Drafted statement surrounding summer festival cancellation and distributing to local media, as well as across all appropriate social channels, and on websites

• Strategic planning and virtual program development; Zapwater developed a comprehensive overview of alternative digital initiatives to keep the community engaged and bring the spirit of these beloved festivals to the homes of those who look forward to attending each year; led various planning calls with WTCC and festival partners to move plans forward, troubleshoot operation logistics and determine the best approach to ensure participating bands and vendors receive the support they need during this difficult time

• Assisted with virtual programming logistics, led promotional content strategy, digital ad campaigns and event execution across social media
  • Created and executed comprehensive organic and paid social media plan; created graphics and drafted content
  • Assisted with paid media push by overseeing partnership with Do312

• Coordinated PetFest programming; connected with participating businesses to discuss logistics and schedule takeovers

• Conducted influencer outreach and secured promotional partnership with Chicago Bucket List
KEY LEARNINGS

SUCCESES

• **Live Stream Viewership:** The teams were thrilled to see close to 1,000 viewers join the night one live stream and over 3,000 viewers tuning in for night two! Despite some technical difficulties during the DJ Stage live stream, the team acted quickly to find a solution and maintained consistent viewership throughout.

• **Social Conversation:** With more than 50 Twitter mentions and over a dozen tags across Instagram and Instagram Stories, we were thrilled to see so much social chatter surrounding the Live Streams across all social platforms. It’s also worth noting that these users utilized the correct social tags, which allowed us to track their content, so we’re happy to see that this virtual push did solidify that messaging.

LEARNINGS

• **Engagement:** Following the band and DJ live streams, we saw a steady drop-off in engagement across our social media channels. This is likely due to the fact that many users who had been checking in for live stream specific updates were no longer coming to our pages. It is possible that the week-long timeframe may have been a bit too long for this niche virtual festival, however we were happy to continue driving traffic to our participating small businesses.

• **Overall Media Impressions:** Due to cancelling the in-person festivals and shorter lead times to promote the festival, the overall media impressions were lower than year’s past. However, Zapwater was nimble, worked to quickly turn around press releases, and secured quality coverage in a short period of time. In addition to general coverage, the team drafted and disseminated statements surrounding the initial cancellation and event postponement.
LIVE STREAM
LIVE STREAM

Over 1,000 views

Over 3,000 views

KEY INSIGHTS

The 2-night live streams generated more than 35,000 impressions.

Users age 35 – 44 made up for 47% of total viewers with the longest average watch time.
MEDIA RELATIONS
Zapwater’s media outreach generated **more than 5 million impressions** in top publications, including Daily Herald, Chicago Sun-Times Online, Chicago Parent, Block Club Chicago, Time Out, Chicago Reader and more. Publications include:
Everything You Need to Know About 2020 Virtual West Fest Chicago

West Fest Chicago is one of a number of events organized by the West Town Chicago Chamber of Commerce each year. Usually taking place on Chicago Avenue between Damen and Wood, this year’s festival (happening July 15 – 22) is moving online in the interest of public health and safety, like many of our favorite summertime Chicago festivals. Though you physically won’t be able to drift from tent to tent, perusing the wares of local merchants as you might ordinarily be inclined to do, you can still support vendors, musical acts, and even animals in need as part of the Virtual West Fest.
West Fest Chicago Goes Online This Week With Music, Local Vendors And More

The festival will run Wednesday to July 22 with promotions from West Town businesses, livestreamed music and DJ performances.

WEST TOWN — West Fest Chicago is happening — but as a virtual celebration this week.

The festival will run Wednesday to July 22 with promotions from West Town businesses, livestreamed music and DJ performances, according to an announcement from the West Town Chamber of Commerce. Music will be livestreamed starting 6 p.m. Friday and Saturday on the festival’s website.

The Chamber of Commerce canceled West Fest Chicago, along with other West Town summer festivals, in early April due to the ongoing coronavirus pandemic.

Some members of the Chamber of Commerce and small businesses will offer promotions and specials during the fest. The virtual vendor schedule will be available Wednesday on the festival’s website.
Instead of bringing music and vendors to the streets of West Town this summer, West Fest will take place virtually, hosting two nights of livestreamed performances. Tune in to catch sets from disco-tinged rapper Ric Wilson, house DJ Mark Farina and hip-hop duo Mother Nature. A virtual version of the annual Pet Fest will showcase videos of four-legged friends between musicians and a lineup of local businesses will offer special deals and promotions throughout the weekend. It’s free to watch the stream, but a $10 suggested donation will help ensure that West Fest can return in the future.
PAID MEDIA SUPPORT
To reach additional engaged consumers online, the team assisted with securing a promotional partnership with Do312 as a part of their #DoStuffAtHome series dedicated to quarantine-friendly programming throughout Chicago.

This partnership consisted of a dedicated event listing on Do312.com, inclusion in daily newsletter, organic social promotion and a sponsored giveaway, which provided the West Town Chamber with access to Do312’s collected data entries. Winners of said giveaway received gift certificates to local retailers to encourage purchases and provide much-needed support during these times.

DO312 STATS:
280,000 UVPM
240,000 Subscribers
155,000 Followers
INFLUENCER RELATIONS
Chicago Bucket List

West Fest Chicago is going virtual this year – Tag a friend you want to “go” with! NOW through 7/22, you can tune into the music live streams, shop your favorite vendor sales and order your favorite grub here: https://bit.ly/westfestchicago2020 #WestFestChicagoAtHome #WestTownChicago #WestFestChicago West Town Chicago

GRAPHIC DEVELOPMENT
Given that our live festival coverage across social media is typically photographs captured onsite at the event, this year’s virtual programming presented a challenge to ensure that our varied programming and promotions were still presented in a cohesive and on-brand format. As such, Zapwater worked with the festival’s existing branding to create a series of informative graphic templates to communicate all aspects of the virtual festival experience.
